MOBILE GYNECOLOGY CLINIC

It is designed in order to gynecological examine or make outpatient treatment to patients who live in rural areas and have limited access to the hospital.

At Enak, we build customised Mobile Gynecology vehicles, which we convert and design according to wishes and needs of customers.

Mobile Gynecology Clinic can be designed on a van or trailer with different brands of chassis of vehicle.

These mobile women's clinics are devoted to obstetrics and gynecology, including female infertility, and family planning.

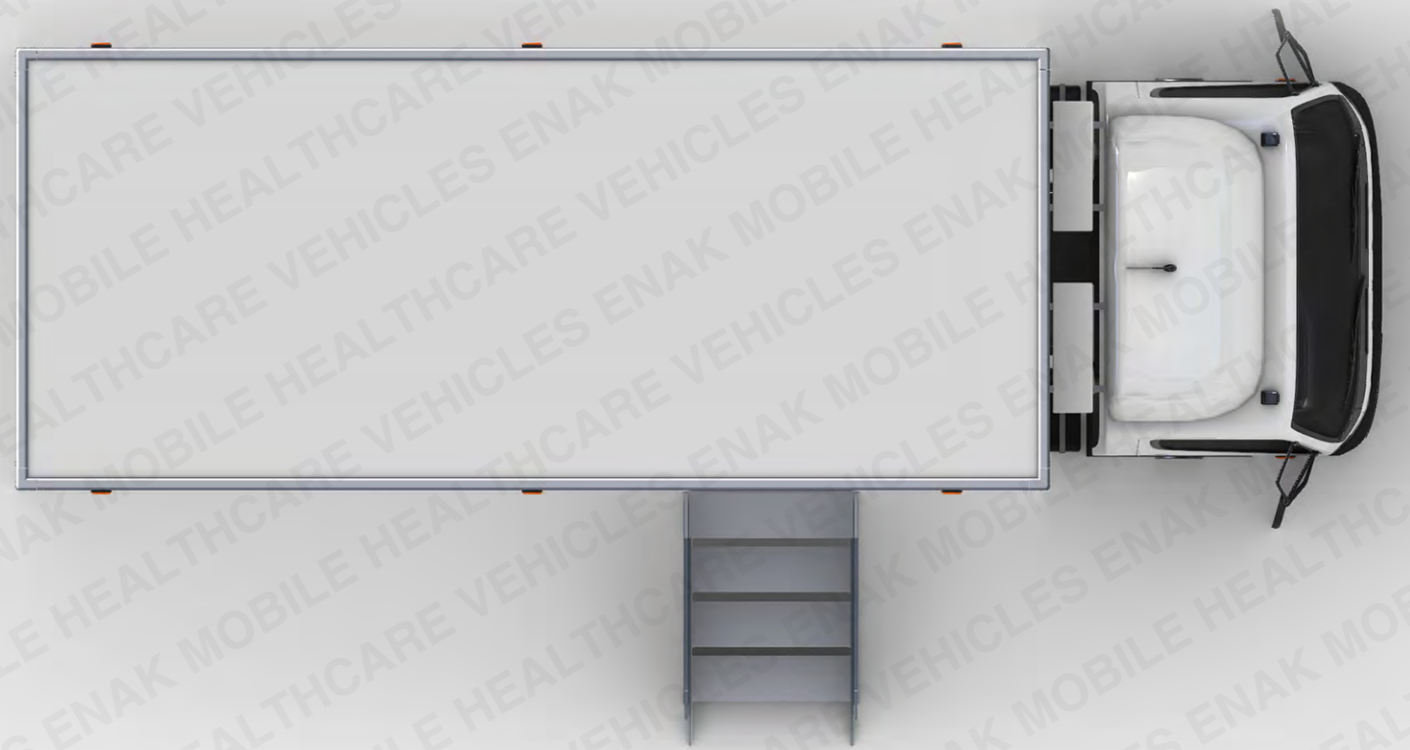

Some of the equipment that can be implemented into these OB-GYN clinics are:

- 1) Ultrasound Machines;
- 2) fetal monitors;
- 3) PAP smear tests;
- 4) Other female test equipment; etc.

All of these mobile women's centers are fully capable of traversing the worst road networks on the planet in order to bringing women's healthcare treatment to the most remote patients and villages in the world.

EXTERIOR DESIGN

INTERIOR DESIGN

It can consist of many rooms. It can have a locker room, in which the women can dress up and undress.

The gynecological examination table can be mounted in the middle of the vehicle. On there can be made urologic and minor surgical operations.

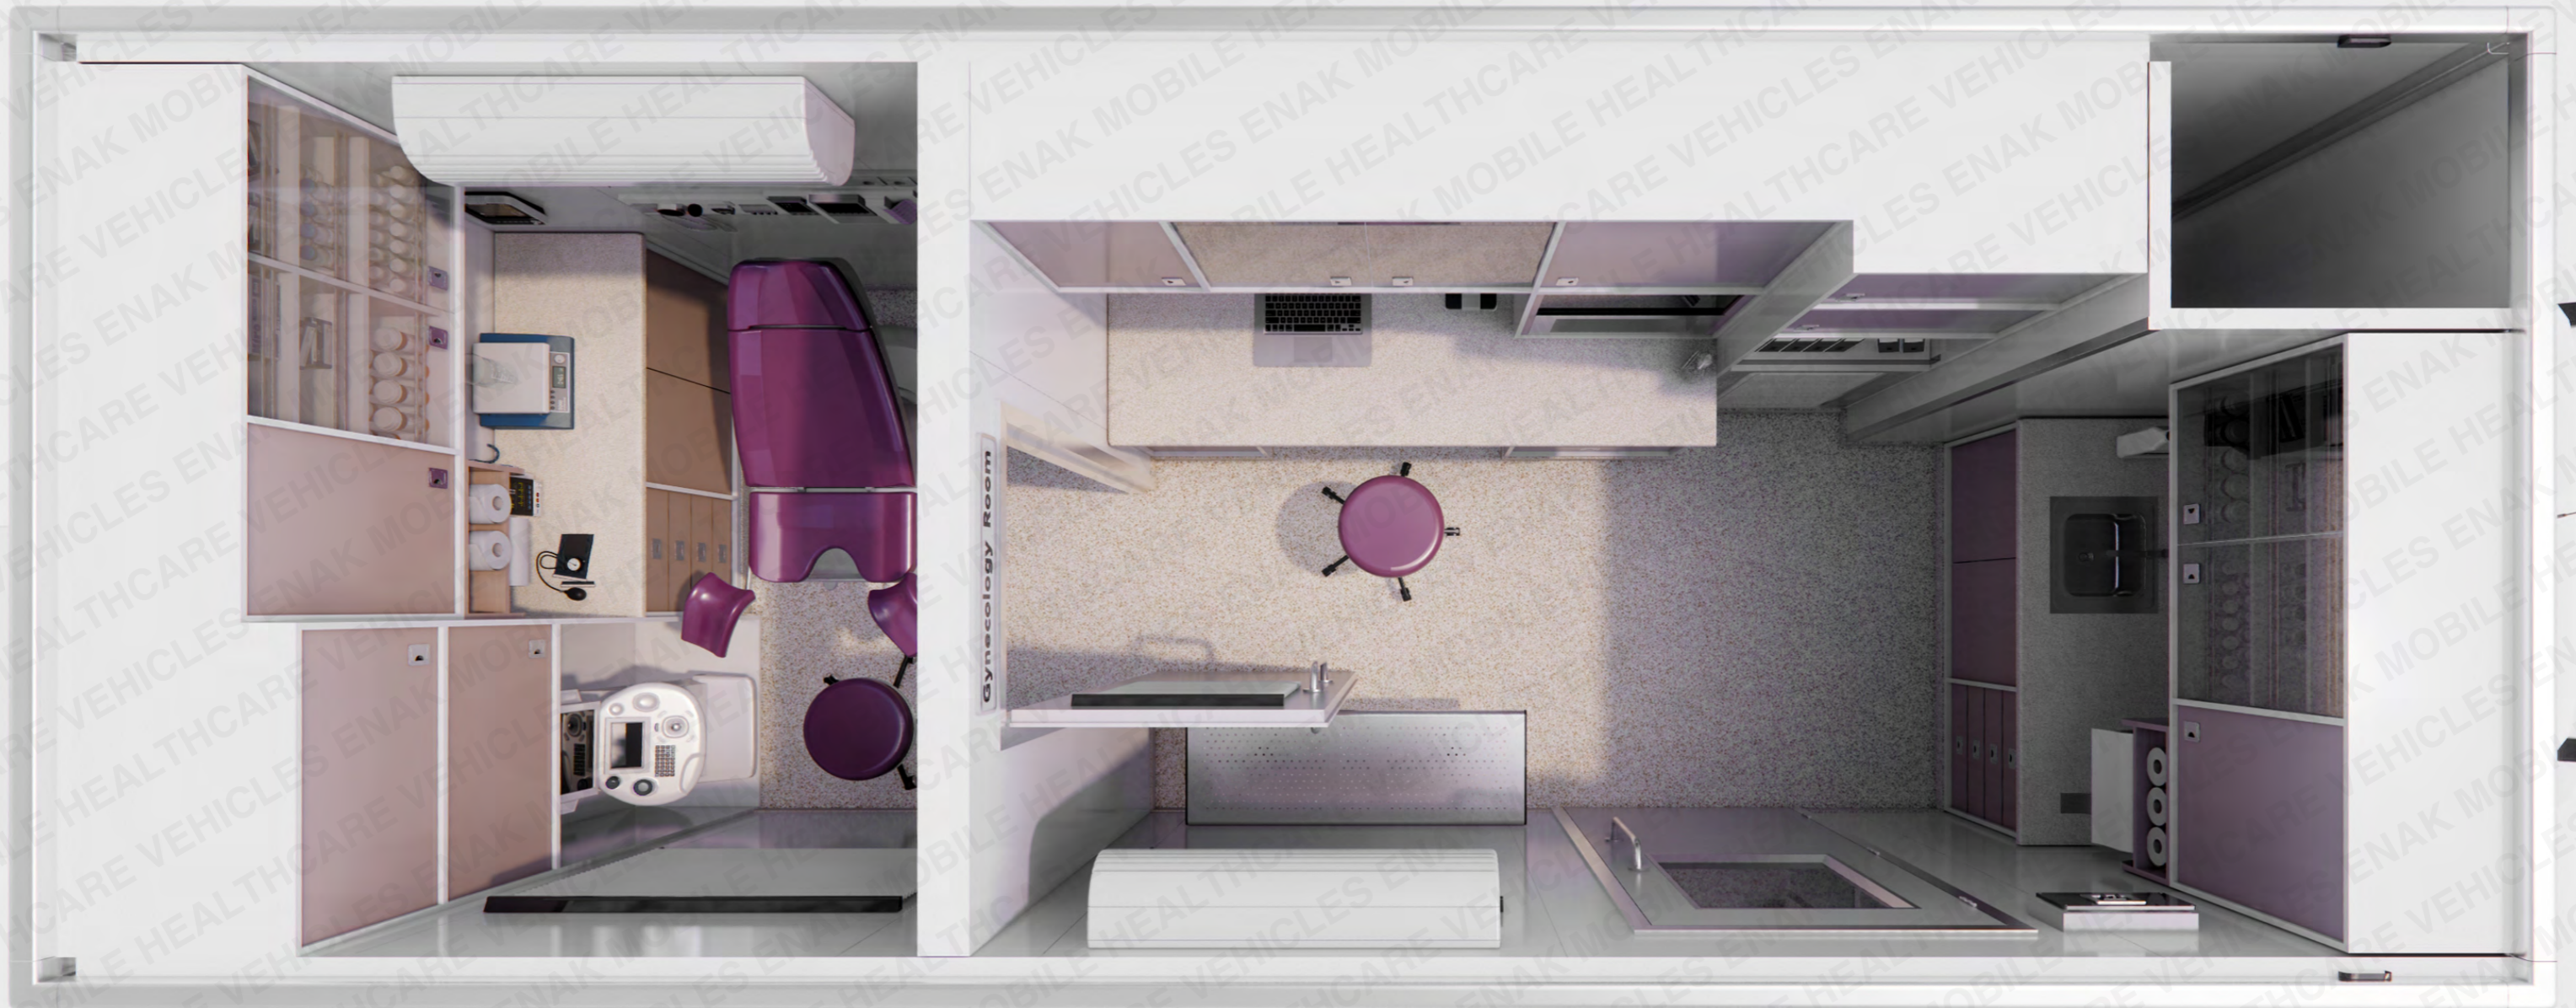

There is a reception area for initial screening of patients and a waiting area.

The floor of the gynecological examination ambulance was covered with an epoxy material that can be cleaned easily.

You can scan the QR code to examine it more closely.
